Subject Index

A

AAAP
  disease reports, 1985 856
  P. P. Levine Award, 1985 641
  Reed Rumsey Student Awards, 1986 642
  Special Service Award, 1986 639
  tributes 449, 451
adenocarcinoma
  of chicken, estradiol receptors and ovalbumin in 219
  in turkey oviducts 433
adenohypophysis of chicken, *Escherichia coli*-induced modifications in 247
adenovirus, pathology of, in *Escherichia coli*-infected chickens 81
aflatoxin
  antioxidants in feed *vs.*, in chicks 802
  dietary, distribution and clearance of, in turkeys 788
  quail resistance to, serum α-amylase activity relationship 568
airsacculitis
  Mycoplasma gallisepticum, 3-acetyl-4″-isovaleryl tylosin *vs.* 505
  Mycoplasma synoviae, infectious bronchitis virus exacerbation of 221
Alcaligenes spp., turkey coryza relatedness 172
Alcaligenes faecalis see also *Bordetella avium*
  temperature-sensitive mutant vaccine *vs.*, in turkey 112
analysis, positive/negative ratio, in ELISA for infectious bursal disease 216
antibiotic
  anticoccidials, *Eimeria* resistance to 690
  chlortetracycline microbiological assay 574
  medicated feed effect *vs. Mycoplasma gallisepticum* 580
anticoccidials, *Eimeria* resistance to 690
antioxidants, dietary, *vs.* aflatoxin 802
arthritis/tenosynovitis, viral, egg transmission of 613
ascarid *see Ascaridia, Contracaecum*
Ascaridia galli, fenbendazole *vs.* 716
ascites
  phosphorus-deficient diet-induced 453
  sodium chloride poisoning in turkeys 847
Aspergillus fumigatus, ribosome-lipopolysaccharide vaccine from, *vs.* fowl cholera 409
astroviruses, enteric disease in turkey poults 728
Austrobilharzia variglandis, chicken leukocyte response against 683
author's guidelines 245, 446, 637, 893
avian leukosis *see* leukosis
awards
  AAAP Special Service, 1986 639
  P. P. Levine, 1985 641
  Reed Rumsey Student, 1986 642
  Upjohn Achievement, 1986 640

B

Bacillus cereus for chlortetracycline quantification 574
bacterin *see* vaccine
biotechnology
  applications in poultry 47
  disease diagnosis 12
  ELISA developments 19
  gene insertion 43
  hybridoma antibodies
    monoclonal, for disease diagnosis 12
    protozoan vaccine development 37
  nucleic acid probes for disease diagnosis 12
  recombinant DNA in vaccine development 24, 28, 37
  selective survey 3
  symposium introduction 1
  vaccine development
    bacterial 28
    protozoan (coccidial) 37
    viral 24
blindness in dark-out-housed chickens 609
bluecomb disease, coronavirus-associated 319

bobwhite quail *see* quail
Bonasa umbellus, free-flying, neoplasia in 238
Bordetella spp., turkey coryza relatedness 172
Bordetella avium see also *Alcaligenes faecalis* and coryza
  Escherichia coli clearance from infected turkeys 352
  outbreak in turkey breeder flocks 234
  Pasteurella multocida vaccinal immunity interference 838
  plasmid role in pathogenicity 593
  toxin
    heat-labile, detection and neutralization 808
    heat-stable 761
  tracheal mucus transport rate 154
Bottorff, Charles A., tribute 449

C

cage contamination, coccidia and salmonella 313
Cairina moschata see duck
calcium deficiency, influenza virus infection enhanced 672
Campylobacter jejuni in fertile poultry eggs, storage *vs.* 76
Capillaria obsignata, fenbendazole *vs.* 716
carbohydrate moieties in Newcastle disease virus strains 340
Chlamydia psittaci in latex agglutination antigen for antibody detection 60
chlorination of drinking water *vs.* salmonella in turkeys 362
chlortetracycline in avian plasma, microbiological assay 574
cholera, fowl, *see* fowl cholera
citrinin effects on renal ultrastructure of layer chicks 191
Clostridium perfringens
  cage-reared layer pullets 601, 617
  subcutaneous infection of broilers 620
Clostridium septicum, subcutaneous infection of broilers 620
coccidia
  cage contamination 313
  drug-sensitivity of 99 isolates 690
  ELISA, single serum dilution, in chickens 658
  fatal cryptosporidiosis in quail 421
  necrotic enteritis-associated, in cage-reared pullets 601, 617
  vaccine development 37
coccidiosis *see* coccidia
Colinus virginianus see quail, bobwhite
Columba livia see pigeon
Congo red medium as *Escherichia coli* phenotypic marker 117
conjunctivitis, cryptosporidial, in duck 598
contamination
  cage 313
  feed, trichothecene mycotoxins, Muscovy ducklings as bioassay 820
Contracaecum sp. in brown pelican 482
coronaviruses, enteritis-associated, properties/cultivation of 319
coryza, turkey, *see also Alcaligenes faecalis* and *Bordetella avium*
  bacterial relatedness to *Alcaligenes* and *Bordetella* 172
Coturnix see quail
cryptosporidiosis
  conjunctival, in duck 598
  intestinal, in quail 421, 603
Curvularia geniculata, mycetoma-associated, in parrot 441
cysts, hydatid-like, in chicken 840

D

5'-deiodination levels in malabsorption syndrome-affected chickens 293
diet
  aflatoxin in naturally contaminated corn 788
  calcium stress and influenza virus 672
  cholesterol *vs.* pigeon pathology 740
  fasting *vs.* heterophil/lymphocyte ratios and body weight of chicken 345
  phosphorus-deficiency ascites in broilers 453
  sodium chloride toxicity in turkey poult 847
  trichothecene mycotoxins, Muscovy duckling as bioassay for 820
disease diagnosis
  biotechnology applications 47
  monoclonal antibody *vs.* nucleic acid probes 12
  symposium proceedings introduction 1
disease reports summary, 1985 856
DNA
  analysis and cloning 3
  recombinant
    herpesvirus of turkeys replication characterized 255
    vaccine development 24, 28, 37
duck
  conjunctival cryptosporidiosis 598
  mast cell study 653
  Muscovy, trichothecene mycotoxin sensitivity 820

E

Eclectus roratus roratus, mycetoma in 441
egg
  fertile, storage *vs. Campylobacter jejuni* 76
  infectious bronchitis *vs.* production/quality 644
  oviduct neoplasm *vs.,* in turkey 433
  viral arthritis/tenosynovitis transmission 613
  yolk use in mycoplasma ELISA 389, 398
Eimeria spp. *see also* individual species
  drug-sensitivity of 99 isolates 690
  invasion dynamics in turkey/chicken 347
Eimeria maxima see also *Eimeria*
  necrotic-enteritis-associated, in cage-reared pullets 617
Eimeria tenella see also *Eimeria*

cage contamination, *vs.* salmonella in chickens 313
ELISA single serum dilution for detection 658
ELISA *see* enzyme-linked immunosorbent assay
embryo vaccination of SPF chickens with infectious bursal disease 776
encephalitis, pigeon 416
enteritis
astroviruses in turkey poults 728
cryptosporidia/reovirus isolation from quail 603
hemorrhagic, antigen and antibody quantitation in ELISA 662
necrotic, coccidiosis-associated, in cage-reared pullets 601, 617
rotavirus isolation/identification in turkeys 494, 794
transmissible, coronavirus isolates characterized 319
enzyme-linked immunosorbent assay
analysis with positive/negative ratio 216
avian leukosis-sarcoma viruses, observations of 488
coccidial infection survey with single serum dilution 658
egg yolk, mycoplasma antibody detection in 389, 398
Eimeria tenella survey with single serum dilution 658
hemorrhagic enteritis virus quantitation 662
infectious bronchitis
nonspecific reactions 149
standardization/application 695
infectious bursal disease
analysis, with positive/negative ratio 216
serology, flock performance association 139
vaccination timing 648
kinetic-based, for infectious bursal disease 126
latest developments 19
Mycoplasma
antibody detection
egg yolk 389, 398
respiratory secretions 543
serum 160, 543
antigen, Triton X-100-solubilized 213
Pasteurella multocida
antigenic extracts *vs.* protection 527
serotype antigenic properties 477
single serum dilution, coccidiosis survey in chicken 658
Triton X-100-solubilized mycoplasma antigens 213
erratum, tracheal mucosa changes in infectious laryngotracheitis 444
Escherichia coli
adenohypophysis alteration in chickens 247
adenovirus pathology in chickens, effect on 81
clearance in *Bordetella avium*-infected turkeys 352
invasive/non-invasive, distinguished by Congo red medium 117
pili O1, O2, and O78, biological/immunological characterization 781
pilus vaccine 687
vaccine development with recombinant DNA technology 28
vaccine, multivalent pilus, immune response 687
estradiol receptors in adenocarcinoma of hens 219
ethoxyquin *vs.* dietary aflatoxin in chicks 802

F

fasting, effect on heterophil/lymphocyte ratios and body weight of chicken 345
feather-pulp lesions, Marek's disease-associated, in field chickens 284
feathering, slow, sex-linked gene, influence on chicken immune competence 751
feed
contamination, trichothecene mycotoxin, Muscovy ducklings as sensitive bioassay 820
deprivation *vs.* heterophil/lymphocyte ratios and body weight 345
medicated, *vs. Mycoplasma gallisepticum* 580
sodium chloride toxicity in turkey poults 847
fenbendazole *vs.* poultry nematodiasis 716
ferrous sulfate toxicity in commercial broilers 430
fluke in brown pelican 482
fowl cholera *see also Pasteurella multocida*
Bordetella avium vs. vaccinal immunity 838
Clemson University *Pasteurella multocida* strain *vs.*, in turkeys 87
ribosome-lipopolysaccharide vaccine *vs.* 409

G

Gallid-1 herpesvirus infection *see* infectious laryngotracheitis
gastrointestinal helminthiasis in brown pelicans 482
gene
insertion, progress and goals 43
sex-linked, determining slow feathering, *vs.* immune competence 751
genetic engineering
applications in poultry 47
biotechnology survey 3
gene insertion 43
vaccines 24, 28, 37
Gracula religiosa see mynah bird
grouse, ruffed, neoplasia in 238
guidelines for authors 245, 446, 637, 893

H

helminthiasis, gastrointestinal, in pelican 482
hemochromatosis in mynah bird 634
hemorrhagic enteritis *see* enteritis
hepatitis, inclusion body, *see* inclusion body
hepatopathy, iron storage, in mynah bird 634
herpesvirus
Gallid-1, pathogenesis in chicken 179
pigeons, free-ranging 426
turkey
recombinant DNA replication characterized 255
vaccinated quails, Marek's disease outbreak in 816
Heterakis gallinarum, fenbendazole *vs.* 716
histamine, dietary, interaction with reovirus S1133 in broilers 199

Hofstad, Melvin S., tribute 451
hybridoma
  antibodies
    monoclonal, to avian leukosis 132
    in protozoan vaccine development 37
  fabrication 3
hydatid-like cysts in chicken 840
hydroxytoluene, butylated, *vs.* aflatoxin 802
hypoxia in phosphorus-deficient broilers 453

I

immune system response to reovirus and infectious bursal disease virus in chicken 298
immunocompetence
  sex-linked gene *K*, negative study on influence 751
  wattle swelling response to phytohemagglutinin 105
immunology, future applications of biotechnology 47
inclusion body hepatitis
  free-ranging pigeon 426
  unusual, in cockerel 224
infectious bronchitis
  Arkansas strain
    effect on layers 644
    vaccine reversion to virulence 221
  ELISA
    nonspecific reactions 149
    standardization and application 695
  Massachusetts-type, reversion to virulence 221
  nephropathogenicity of 4 strains 468
  serological profiles of breeders and progeny 719
  vaccine virus reversion to virulence 221
infectious bursal disease
  adenovirus and *Escherichia coli* infection in chickens, influence 81
  ELISA
    analysis method 216
    serological profiling and flock performance 139
  embryo vaccination, response of SPF chickens 776
  immune response of chicken, reovirus comparison 298
  maternal antibody
    decay rate, measured by KELISA 126
    effect on vaccination timing 648
  quail-chicken hybrid susceptibility 536
  serotype II, chicken infection 709
  subcutaneous clostridial infection association 620
  vaccine
    BVM isolate, in 18-day embryos 776
    live and/or inactivated 557
infectious laryngotracheitis
  Gallid-1 herpesvirus disease pathogenesis 179
  infection studies *in vitro* 327
  restriction endonuclease analysis 835
  smoke- and chemical-associated 843
  tracheal mucosa changes, erratum 444
infectious proventriculitis *see* malabsorption syndrome
infectious sinusitis in *Coturnix* quail 228
influenza viruses
  calcium-deficient diet influence 672
  H5N2 surveillance of waterfowl 207
instructions for authors 245, 446, 637, 893
iron
  storage, excessive, in mynah bird 634
  sulfate toxicity 430

K

KELISA for measuring infectious bursal disease maternal antibody 126
kidney
  nephritis
    chronic, in pigeon 740
    infectious bronchitis-induced in chicken 468
  ultrastructure
    citrinin and ochratoxin A effect in layer chicks 191
    postmortem changes at 27 C in chicken 370
kinetic-based enzyme-linked immunosorbent assay *see* KELISA

L

laryngotracheitis *see* infectious laryngotracheitis
latex agglutination antigen, rapid antibody detection of *Chlamydia psittaci* 60
lectin-binding profiles of Newcastle disease virus 340
leg disorders, twisted, in chickens 699
leukocyte response in schistosome-infected chicken 683
leukosis-sarcoma viruses, ELISA study 488
leukosis virus, avian
  endogenous, replication-competent, in meat chickens 264
  monoclonal antibodies characterized 132
litter, ferrous sulfate-treated, role in broiler poisoning 430
lymphosarcoma, iron storage, in mynah bird 634

M

MA104 cell line for propagating turkey rotavirus 93, 494
macrophages, respiratory
  cellular defense in chicken 67
  turkey 766
malabsorption syndrome *vs.* thyroid function of inoculated broilers 293
malathion toxicity and social stress in chicken 679
Marek's disease virus
  CVI-988, plaque purified, pathogenicity studies 271, 276
  feather-pulp lesions in field chickens 284
  in Japanese quail, turkey-herpesvirus-vaccinated 816
  vaccines *vs.* very virulent strains 276
mast cells in duck 653
maternal antibody *vs.* infectious bursal disease
  decay 126
  effect on vaccination timing 648
Mesostephanus appendiculatoides in brown pelican 482

monoclonal antibody
to avian leukosis virus 132
AVS-1, Newcastle disease strain specificity 562
in disease diagnosis 12
hybridomas secreting, construction and uses 3
in *Mycoplasma gallisepticum* detection 204
mycetoma in parrot 441
Mycoplasma gallisepticum
airsacculitis, 3-acetyl-4″-isovaleryl tylosin *vs.* 505
commercial bacterin *vs.*, in multiple-age chicken farm 309
in *Coturnix* quail 228
ELISA
antibody
in egg yolk 389, 398
in respiratory secretions 543
in serum 160, 543
antigen, Triton X-100-solubilized 213
F strain vaccination evaluation 169
low-virulence strains, diagnosis/characterization of 510
medicated feed *vs.* tracheal infection 580
monoclonal antibody for detection 204
prevalence in commercial California layers 519
radioimmunoassay for antibody detection 628
temperature-sensitive
chicken response 382
vaccine preparations/inoculation routes 772
tylosin, 3-acetyl-4″-isovaleryl, prophylactic efficacy of 505
Mycoplasma synoviae
ELISA
antibody
in egg yolk 389, 398
in serum 160
antigen, Triton X-100-solubilized 213
infectious bronchitis virus exacerbating pathogenesis 221
prevalence in commercial California layers 519
mycotoxin-sensitivity of Muscovy ducklings 820
mycotoxins, effect on renal ultrastructure 191
mynah bird, iron storage hepatopathy and lymphosarcoma in 634

N

necrotic enteritis *see* enteritis
nematodiasis, fenbendazole study 716
neoplasms
in free-flying ruffed grouse 238
hepatic, hemochromatosis-associated in mynah bird 634
in racing pigeons 241
in turkey oviducts 433
nephritis
infectious bronchitis strains 468
in pigeons 740
Newcastle disease virus
Italy-Milano strains, serial passages of 122
lectin binding and carbohydrate moieties in 14 strains 340
monoclonal antibody specific for vaccine strains 562
multiplicity of infection, effects on viral population ratios 122
serological profiles of broilers and progeny 724
vaccine
commercial 623
live and/or inactivated 557
viscerotropic velogenic
Moroccan strains 231
in psittacines, negative study 813
rosella infection, experimental 438
in Saudi Arabian broilers, characterization of 825
nucleic acid probes in disease diagnosis 12

O

ochratoxin A, effects on renal ultrastructure in layer chicks 191
ophthalmopathy in dark-out-housed chickens 609
orthoreoviruses from turkeys, pathogenicity study 585
ovalbumin in adenocarcinoma of hens 219
oviduct neoplasms in turkeys 433

P

P. P. Levine Award, 1985 641
pale-bird syndrome *see* malabsorption syndrome
parasites, fecal, in robins 736
parrot, mycetoma in 441
Pasteurella multocida
Bordetella avium vs. vaccinal immunity 838
Clemson University strain vaccination of turkeys 87
ELISA
antigenic extracts 527
antigenic properties of serotypes 477
fowl cholera vaccine 409
P1059 strains, complement activity and virulence of 500
ribosome-lipopolysaccharide vaccine 409
serotypic survey 632
Pelecanus occidentalis see pelican
pelican, brown, gastrointestinal helminthiasis in 482
pet birds
mynah bird, excessive iron storage in 634
parrot, mycetoma in 441
psittacines, Newcastle disease survey of 813
phage-typing system for *Salmonella hadar* 358
Phagicola longa in brown pelican 482
phosphorus-deficient diet, role in right ventricular failure and ascites 453
phytohemagglutinin, wattle response to, in chicken 105
pigeon
encephalomyelitis 416
herpesvirus in free-ranging 426
neoplasms in racing 241
pathologic findings in production colony 740
pilus isolation from *Escherichia coli* serotypes O1, O2, and O78 781

pilus vaccine, multivalent 687
pinealoma in broiler breeder 853
Platycercus eximius infection with Newcastle disease 438
positive/negative ratio in ELISA 216
proceedings introduction, Biotechnology Symposium 1
protozoan vaccine development via genetic engineering 37
pseudomembranous stomatitis in pigeon colony 740
psittacines, Newcastle disease survey of 813

Q

quail
  aflatoxin resistance in serum α-amylase relationship 568
  cryptosporidiosis in 421
  enteritis in bobwhite 603
  infectious sinusitis in *Coturnix* 228
  Marek's disease in turkey-herpesvirus-vaccinated Japanese 816
  Sertoli cell tumors in Japanese 337
quail-chicken hybrid, infectious bursal disease susceptibility of 536

R

radioimmunoassay for *Mycoplasma gallisepticum* detection 628
Reed Rumsey Student Awards, 1986 642
renal *see* kidney
reovirus
  81-176
    chicken immune response 298
    chicken susceptibility, influencing factors 460

  S1133-dietary histamine interaction in chickens 199
  viral arthritis/tenosynovitis, egg-transmission of 613
respiratory macrophages
  cellular defense in chicken 67
  induction in turkey 766
rhesus monkey kidney cell line for propagating turkey rotaviruses 93, 494
rhinotracheitis *see* coryza
ribosome-lipopolysaccharide vaccine *vs.* fowl cholera 409
robin, American, syngamiasis in 736
rosella, infection with Newcastle disease 438
rotavirus
  avian, experimental infections in SPF chickens 551
  turkey
    electropherotypic analysis 794
    isolation in rhesus monkey (MA104) kidney cell line 93, 494
rotavirus-like virus genomic variation detected by polyacrylamide gel electrophoresis 829
runting and stunting syndrome *see* malabsorption syndrome

S

Salmonella
  cage contamination effects on young chickens 313
  chlorinated water *vs.* infection 362
  phage typing for 358
  in pigeon colony 740
Salmonella hadar, phage typing for 358
Salmonella typhimurium, cage contamination effects on chickens 313
salt toxicity in poults 847
schistosome infection, chicken leukocyte response to 683
serological profiling of broiler breeders and progeny
  infectious bronchitis 719
  Newcastle disease 724
Sertoli cell tumors in Japanese quail 337
serum α-amylase and aflatoxin resistance in Japanese quail 568
sodium chloride toxicity in turkey poults 847
Special Service Award, 1986 639
stress
  dietary, calcium deprivation 672
  feed/water deprivation in chicken 345
  social, and malathion toxicity in chickens 679
swollen-head syndrome, *Escherichia coli*-induced shock relationship 247
symposium, biotechnology 1
syngamiasis in American robins 736

T

T-cell response, wattle swelling as measure of 105
tables of contents, Issues 1–3, 1986 895
testicular tumors in Japanese quail 337
thyroid function in malabsorption-syndrome-affected broilers 293
thyroxine levels in malabsorption-syndrome-affected broilers 293
tibial bone, twisted leg disorders in chickens 699
toxicity
  aflatoxin *see* aflatoxin
  ferrous sulfate in litter 430
  sodium chloride in poult feed 847
  trichothecene mycotoxin susceptibility of Muscovy ducklings 820
tracheal mucosa changes, erratum 444
tracheal mucus transport rate in normal/*Bordetella avium*-infected turkeys 154
tracheitis, *Bordetella avium*-induced, *vs.* bacterial clearance 352
transmissible enteritis *see* enteritis
trematode infection, chicken leukocyte response to 683
tributes
  Charles A. Bottorff 449
  Melvin S. Hofstad 451

triiodothyronine levels in malabsorption-syndrome-affected broilers 293
Turdus migratorius fecal parasites 736
turkey coryza *see* coryza, *Alcaligenes faecalis, Bordetella avium*
twisted leg disorders, characteristics in broilers 699
tylosin, 3-acetyl-4"-isovaleryl, *vs. Mycoplasma gallisepticum* 505

U

Upjohn Achievement Award, 1986 640

V

vaccination
  herpesvirus of turkeys, Marek's disease-associated, in quails 816
  infectious bursal disease
    embryonic SPF chicks 776
    maternal antibodies *vs.* timing 648
  program evaluation 557
vaccine
  Alcaligenes faecalis (*Bordetella avium*) temperature-sensitive mutant 112
  coccidial, hybridoma antibodies and recombinant DNA 37
  Escherichia coli, multivalent pilus, immunogenicity of 687
  infectious bronchitis virus reversion to virulence 221
